ANNUAL INDEX Volume 4, 1967

January 1–40 *July 93–128*
April 41–92 *October 129–152*

SUBJECT INDEX

Box Girders
Box Girder Bridge Design—*Kavanagh* ... 100

Bridges
Box Girder Bridge Design—*Kavanagh* ... 100
Horizontally Curved Steel Girders—Fabrication and Design—*Thatcher* ... 107
The Evolution of German Cable-Stayed Bridges—An Overall Survey—*Feige* ... 113

Columns
Design of Beam-Columns—*Hooper* ... 41

Composite Design
Composite Action of Concrete Slab and Open Web Joist (Without the Use of Shear Connectors)—*Wang and Kaley* ... 10

Connections
High Strength Bolting—*Munse* ... 18
Maximum A325 Bolt Loads at a Glance—*Stetina* ... 143

Containment Vessels
Conceptual Design of Double Steel Containment Vessels—*Wang* ... 85

Curved Girders
Horizontally Curved Steel Girders—Fabrication and Design—*Thatcher* ... 107

Design Aids
Allowable Loads on Beams without Lateral Support—*Mataya* ... 28
Design of Beam-Columns—*Hooper* ... 41
Simplified Procedure to Determine Maximum Beam Deflection—*Koo* ... 123

Fabrication
Horizontally Curved Steel Girders—Fabrication and Design—*Thatcher* ... 107

Fire-Resistant Construction
The Severity of Fires in Steel-Frame Buildings—*Seigel* ... 139

Multi-Story Buildings
Design of Braced Multi-Story Frames by the Plastic Method—*Lu* ... 1
Plastic Design of a 14-Story Apartment Building—*Bennett* ... 68

Plastic Design
Design of Braced Multi-Story Frames by the Plastic Method—*Lu* ... 1
Generalized Superposition Method in Plastic Analysis—*Pincus* ... 136
Plastic Design by Moment Balancing—*Gaylord* ... 129
Plastic Design of a 14-Story Apartment Building—*Bennett* ... 68

Prestressed Steel
A Prestressed Steel Frame—*Rogers* ... 62

Space Frames
A Prestressed Steel Space Frame—*Rogers* ... 62
Hyperboloid Space Frames for Tower Structures—*Levinton* ... 93

Towers
Hyperboloid Space Frames for Tower Structures—*Levinton* ... 93

AUTHOR INDEX

Bennett, William A. Plastic Design of a 14-Story Apartment Building ... 68
Feige, Adolf The Evolution of German Cable-Stayed Bridges—An Overall Survey ... 113
Gaylord, Edwin, H. Plastic Design by Moment Balancing ... 129
Hooper, Ira Design of Beam-Columns ... 41
Kaley, D. J. (see Wang, P. C.)
Kavanagh, Thomas C. Box Girder Bridge Design ... 100
Koo, Benjamin Simplified Procedure to Determine Maximum Beam Deflection ... 123
Levinton, Zusse Hyperboloid Space Frames for Tower Structures ... 93
Lu, Le-Wu Design of Braced Multi-Story Frames by the Plastic Method ... 1
Mataya, John Allowable Loads on Beams without Lateral Support ... 28
Munse, W. H. High-Strength Bolting ... 18
Pincus, George Generalized Superposition Method in Analysis ... 136
Rogers, Paul A Prestressed Steel Space Frame ... 62
Seigel, L. G. The Severity of Fire in Steel-Frame Buildings ... 139
Stetina, Henry J. Maximum A325 Bolt Loads at a Glance ... 143
Thatcher, W. M. Horizontally Curved Steel Girders—Fabrication and Design ... 107
Wang, Chen-Hwa Conceptual Design of Double Steel Containment Vessels ... 85
Wang, P. C. and Kaley, D. J. Composite Action of Concrete Slab and Open Web Joist (Without the Use of Shear Connectors) ... 10
